Teacher survey:

Ms. Lauri is asking that everyone look over and read the student code of conduct. She will share the link

Survey scores did go down from MOY last year, Ms. Lauri is requesting feedback specifically on student conduct/consequences (student behavior)

4. Department Questions and Concerns:

- Kindergarten-
  - Science Night Thoughts: Last year there were too many activities. Kids were rushing around trying to get to them all and not completing them correctly or rushing through them. We think there should be 1 activity per hallway and have 2 classrooms from each grade level open doing the activity that way students can still visit their grade levels.
  - Career/Culture Day or Touch a Truck: We like the idea of having this but prefer it be during the school day rather than an after-school event.
- 1st Grade
  - Follow up on fridge for hallway Ms. Lauri will look into this
- 2nd Grade
  - chooses career/cultural day
- 3rd Grade
  - Cultural day during the school day
  - At the beginning of the year, it was announced that we would not be allowing students to bring personal devices to school, and we still have teachers that are doing it as incentives on Fridays. Ms. Lauri will clarify with teachers- no devices as incentives
  - Spanish pledge- why are we doing it in Spanish and not the other languages? Should we keep this?
- 4th Grade - Cultural day during the school day
- 5th Grade
  - Science night - seemed to be a lot of activities that took a long time. Maybe extend the time or have shorter activities. Many families were still there after calling that it was over. Career and Culture idea. During the day but not during March interferes with Books and Brackets
