3. Admin:

a. NCStar-Taylor review

- i. Need to upload agenda/minutes and the things we are doing/need to work on in order to meet our goals
- ii. Every site base meeting we need to discuss whether or not we are working toward these goals. Taylor will input the data into the website
- iii. Data trackers:
 - 1. 5th grade is using to make groups
 - 2. 2nd grade is planning to input data next week
 - 3. 1st grade is using data from tracker to make small groups (especially math probe data)
 - 4. 3rd grade is using data from probe tracker to make small groups and remediate
 - 5. Householder is making groups based on NC check in data
 - 6. Using data tracker more than iReady data for grouping
 - 7. Used Mclass data to form literacy small group
- iv. BTs/Mentors (Amy): meet weekly with each other, BT trainings, maintaining logs, check in forms from the district

b. Cafeteria Restart

- i. Yacker Tracker- we have 2, it tracks decimal levels.
- ii. Cafe assembly in January to have a restart with enforcing the cafeteria rules
- iii. For now, revisit cafeteria STAR Patriot expectations, continue with the cups
- iv. Accountability for the cafeteria helpers that are staying behind after the class leaves

4. Department Questions and Concerns:

- Kindergarten- Ideas for Second Bus Run:
 - Have a basket for each bus, take down student's names who are doing the right thing, at the end of the week draw a name and they can get a button for their lanyard
 - Teachers circulate and give house points on the iPads (positive reinforcement)
 - Safety Patrol students (from the last bus to leave) who can walk around and help enforce the rules
- 1st Grade -
 - Can we get a fridge for our hall?
 - In the past, the central office would provide a fridge for each hall. We will request again (Watts)
- 2nd Grade-
 - Can we use the stage for plays? It is an inconvenience for Kothe, but we will talk about how we can work that out.
 - New soccer goals with PTA money? We will put it on the list... possibly just replace the nets, we will look at the cost and see if it would be cost effective to buy new ones or not
 - Students rolling up swings at recess. Older kids can't swing when they are really low, so have been allowed to roll them up some in the past but make sure they put them back down. Suggestion: you can roll them up, your feet still have to be able to touch the ground
 - Stoplight in the cafeteria is not working properly... it just goes in a pattern, not based on sound level.

- 3rd Grade - none
- 4th Grade -
 - Running in the cafeteria
 - Can we get more basketballs for recess
 - Would like to use house tables more but typically full with parents
- 5th Grade- None
- Specials- none
- EC- none
- TA- none
- Parents- none
